PROFILE

Multidisciplinary creative with hands-on experience across graphic design, UI/UX design, photography, videography, and 3D modeling. Comfortable owning a project end-to-end — from concept and shoot to edit and final delivery — using Photoshop, Illustrator, Adobe XD, Figma, Blender, Lightroom, Premiere Pro, and After Effects. Background in UI/UX design for web applications combined with brand identity, print, and motion work for institutes and student organizations. Skilled in prompt engineering and using AI tools such as ChatGPT, Claude, and Midjourney to speed up ideation, concept generation, and design workflows. Based in Dubai, UAE and open to graphic design, UI/UX, photography/videography, or hybrid creative roles.

SKILLS & SOFTWARE

Graphic & Brand Design: Logo & Brand Identity, Print & Editorial Layout, Poster & Flyer Design, Adobe Photoshop, Adobe Illustrator, Canva

UI/UX Design: Wireframing, Prototyping, User Flows, Design Systems, Adobe XD, Figma

Photography & Video: Photo Editing, Videography, Video Editing, Podcast Production, Adobe Lightroom, Adobe Premiere Pro, Adobe After Effects

3D & Motion: 3D Modeling, Architectural Visualization, Blender, Motion Graphics

AI-Assisted Design: Prompt Engineering, ChatGPT, Claude, Midjourney, Canva

EXPERIENCE

UI/UX Developer Intern

Jul 2023 – Jan 2024

MPro Technologies — Calicut, Kerala, India

- Created wireframes, interactive prototypes, user flows, and design systems for web applications, following UI/UX best practices.
- Improved usability, accessibility, responsive layouts, and visual consistency across multiple application modules.
- Collaborated with development and product teams to translate user requirements and design concepts into functional interfaces.

SELECTED CREATIVE PROJECTS

Brand Identity & Logo Design

Client: Japanese Training Institute | Adobe Illustrator, Photoshop

- Designed a complete logo and brand identity for a Japanese language training institute, translating the client's brief into a distinct visual mark.

Website Homepage Design

Client: Illford Digital | Figma, Adobe XD, Photoshop

- Designed the homepage layout and visual identity for Illford Digital, balancing brand tone with clear UX and content hierarchy.

Magazine Design

College Publication | Adobe Illustrator, Photoshop

- Designed the full layout, typography, and visual style for a college magazine, from cover to inside spreads.

Podcast Production & Editing

College Podcast | Adobe Premiere Pro, Audition-style Audio Editing, Canva

- Produced and edited a college podcast series, handling audio editing, episode assembly, and cover/promotional artwork.

3D Residential House Modeling

Personal Projects (x2) | Blender

- Modeled two residential house designs in Blender, covering structure, layout, and rendered visualization.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science and Engineering <i>APJ Abdul Kalam Technological University, Kerala, India — CGPA 6.98/10 (First Class)</i>	Jul 2023
React JS Certification <i>Internshala Trainings</i>	Jun 2024

LEADERSHIP & ACTIVITIES

- Led the IEEE Design Team, CETkr for three years, directing visual design output and mentoring students in UI/UX and graphic design.
- Webmaster, IEEE Student Branch, CETkr (2020–2021).
- Electronic Communication Coordinator, IEEE Student Branch, CETkr (2021–2023).
