IEEE

IEEE SB CETKR

The IEEE- Institute of Electrical and Electronics Engineers is a worldwide professional association with its corporate office located at New York. IEEE Student Branch of College of Engineering Trikaripur was established in 2013, since its time of inception our SB actively organized numerous events, both inter college and intra college and even participated in events both national and international level. Our SB has Power and Energy Society (2016) and Industrial Application Society (2020). We also have a Women in Engineering affinity group to empower and motivate the juvenile women. Our student branch is actively organizing and participating in events all around the Kerala Section. We have members from all the departments (CSE, IT, ECE, EEE, CE). IEEE SB CETkr focuses on engraving the students within the college in both technical and creative skill to bring innovative ideas within the SB and outside the SB to ensure the accomplishment of 'advancing technology and humanity'.

The student branch hosted technical, non-technical and other intra college and inter college events. Which was a door to opportunities, in showcasing their hidden talents and to bring about astonishing works. Meetings were organized monthly. Every year we conducted a wide variety of technical and non-technical events including workshops, debate, quiz, talks and different types of competitive contests. IEEE converges us to enhancements of advancing and innovative modern technologies and ideas.

The SB through these events focus on bringing young competitive, creative, and confident engineers to face the challenges and critics in the reality by setting forth admirable quality technical and managerial programs with excellent volunteering exposure. Keenly molding students with humanity and professional ethics to maintain quality professionalism. In brief IEEE SB CETkr entitled its great role in molding engineers with excellency of professionalism.

COLLEGE OF ENGINEERING TRIKARIPUR

College of Engineering Trikaripur is a government self-financing, NBA and NAAC accredited engineering college located in Kasaragod district of Kerala enacted to be a premier institution in education and research for molding technically competent and socially committed professionals. It was established in 2000 under the auspices of the Co-operative Academy of Professional Education (CAPE), an autonomous society under the Government of Kerala. The college is affiliated to APJ Abdul Kalam Technological University. Highly qualified and dedicated faculty, well equipped laboratories and Workshops, Training & Placement cell, Adequate transportation etc. Sprawling Campus with panoramic views make the College of Engineering Trikaripur stand out from other colleges.

College of Engineering Trikaripur ensures in providing quality education in a disciplined manner. CETkr has different departments including CSE, IT, ECE, EEE and CE. Student cells like IEEE, NSS, CETkr FOSS and ISTE are also very zestful in the college.

PRINCIPAL'S NOTE

Dr. Vinod Pottakulath
(Principal)

"College of Engineering Trikaripur, Cheemeni is one of the fast growing professional colleges in the Malabar region of Kerala. In its 21 years of history, the societal contribution by our students has been exemplary. In the pandemic period even the lives of human beings are struggling for survival, participation and coordination of various activities by the student fraternity was remarkable. They organized many technical, cultural and social programs in online mode which eased the pandemic-related tensions.

It gives me immense pleasure and satisfaction to note that the IEEE Student Branch, College of Engineering Trikaripur has organized a wide variety of technical activities and now has decided to publish a News Letter. Endeavors of this ilk would invariably foster the academia and society in multifarious manners. Such initiatives essentially provide the necessary impetus to the stakeholders of education by creating a platform for active discussions which lead to the overall academic development. I wholeheartedly congratulate the spirit and enthusiasm shown by the whole team for putting this into a reality. I hope this will help our IEEE student volunteers to get a platform for articulating their inherent ideas. I wish all success to this endeavor."

COUNSELOR'S NOTE

Dr. Naveena A K
(Branch Counselor)

"IEEE is the largest technical professional organization dedicated to advancing technology for the benefit of humanity. This global community has more than 423000 members in over 160 countries. IEEE creates an environment where members collaborate on world changing technologies from computing and sustainable energy systems to aerospace, communication, rob otics, health care and more.

College of Engineering Trikaripur has had a vibrant IEEE Student Branch since its inception. It is nice to hear that the IEEE SB College of Engineering Trikaripur is bringing out a new letter. I am happy that the activities of IEEE SB College of Engineering Trikaripur has not been affected despite the pandemic, but it has found its new ways to connect people all around the world in the virtual platform. We have to find new ways to overcome the obstacle and enhance the exchange of knowledge.

A newsletter is the mirror of the activities carried out by the organization. It reflects the various aspects of the campus and also the latest technology improvement all around the world. It helps to know many things which are not covered in the syllabus and also it encourages the writing skills of the students. Apart from that it gives a platform to know various developments in the field of technology. It also gives the chance for students to read the articles of eminent persons in the field of Technology. All our students are very talented in many ways. Some may be good in writing, many may be good in capturing the latest technologies, many may be good in extracurricular areas. It gives an opportunity to reflect your talents. I take this opportunity to congratulate those who are working hard for making this newsletter a reality. I am sure that this will be an added feather for IEEE SB College of Engineering Trikaripur."

CHAIR'S NOTE

"It's much proud that IEEE SB CETkr is here with our 1st edition of newsletter 'Gazette -The glimpse of glory'. I express my hearty wishes to all the student members and the readers . It's a great honour for me to publish the 1st edition of our newsletter for the current academic year.

Our intent is to uplift our student branch and enhance the student members to be creative and enthusiastic,and to bring a clear vision about IEEE SB CETkr.

I really appreciate the editorial board for their remarkable effort to make this happen and I convey my wishes to the team for the upcoming editions.

I hope the newsletter can brings the visualisation about our student branch to the readers and a clear picture of the opportunities that been provided to the student members. Being the Chair of IEEE SB CETkr, I ensure that our readers it would be a great journey through the pages."

Haneen Ashraf
(Newsletter Editor)

EDITOR'S NOTE

"It's a great privilege being the newsletter editor of IEEE SB CETkr. I proudly present you the 1st edition of half yearly newsletter.
As you go through the next pages ,you will see to the tremendous effort IEEE SB CETkr has put in.Our SB had conducted numerous events for the enhancement of students. All the events were great triumph. Rather than mere engineering ,we always think out of the box. A glance through the newsletter ensures it.
I hope you will spare some time to turn the pages and read it, there's so much to read. So much to ponder and so much to know, as we're stepping into excellence.

On behalf of IEEE SB CETkr and me, I express my sincere gratitude towards everyone who contributed their valuable time and effort to the newsletter."

EVENTS
EVENTS
EVENTS

RELLIGO-TOGETHER WITH UNITY INTRA-SB EVENT

Relligo-Together with Unity, an eight-day long intra-SB event was organized from 9th to 16th December 2020. The motive was bringing up inert student members of SB to be more active and engaging and it also tested and improved the volunteering skills of active members. Relligo was conducted as 5 major events and 4 main tasks. The 5 activities included 4 contests including 'Questa- A Virtual Treasure Hunt', 'Pixel- Photography Contest', Report Writing Competition and 'Juncture- A Virtual Group Discussion', and a Talk on 'How to Build-up Your LinkedIn Profile'. In order to bring unity, the students were made into 10 groups and competition was between the groups. Prior to the event, from all the total members excluding execom (67 IEEE Members), 23 pro-active members were selected and chosen as the mentors or group leaders. The entire SB members were divided randomly into 10 groups each consisting 6 to 8 members. Each group consisted of 2 to 3 mentors for monitoring the group members and for the excellent execution of events. They served as mediators between the coordinators and the members for explaining each activity or tasks through a WhatsApp group for the mentors.

The 10 groups were:

Group 1: *Masterminds*
Group 2: *The Octaholics*
Group 3: *Inbounderzz*
Group 4: *Ghilladikal*
Group 5: *Lan Blast*
Group 6: *SQUADRON*
Group 7: *Fantastic 6*
Group 8: *Vikings*
Group 9: *TRITON*
Group 10: *The Chamber of Secrets*

NameiT!

Pre-event conducted exclusively for the mentors from 6th December, to bring out meaningful and complimenting names for the event and other activities. Each mentor was allotted to submit a maximum of 3 names. The names given by Habeeba Sathar and Ashik Suresh M K were selected for the activities.

Questa- A Virtual Treasure Hunt

A virtual treasure hunt was conducted between the groups from 9th to 11th December. There were 10 questions released on these 3 days with at most 3 clues for each question. The first clue/ question was provided in the google form at 9am and the second and the third was shared as IEEE SB CETkr social media stories during 1pm and 5 pm respectively for one hour each.
The winners of the competition were:
1st: Inbounderz(Team 03)
2nd: Squadron(Team 06)
3rd: Ghilladikal(Team 04)

Pixel- Photography Contest

A photography contest, namely Pixel, was conducted on 10th December. The theme for the same was 'Humans Locked- Nature Unlocked'. The contest was for individual members and a group could submit a maximum of 3 entries. The entries were also shared on SB Facebook page and the likes gained by each entry was also taken into consideration.

© IEEE SB CETkr

Talk on 'How to build-up your LinkedIn Profile'

Talk on 'How to Build-up Your LinkedIn Profile' on 13th December at 7pm was conducted through Google Meet. The speaker for the session was Ms. Staji Wilson, Assistant Engineer, TCS and YP, PES Kerala Chapter. The session covered all the aspects on how to maintain and mold up a professional LinkedIn account as an engineering undergraduate. The speaker explained each attribute of LinkedIn by showing her profile to the students. The introduction and the welcome address were delivered by Ms. Anannya, Chairperson, IEEE SB CETkr followed by the talk by the speaker. The talk ended with a Q&A session. The Vote of Thanks was delivered by Ms. Aiswarya N, WIE Chairperson, IEEE SB CETkr. The session won the hearts of students by enthusiastic presentation by the speaker.

Report writing competition

A Report Writing Competition on the talk session on 'How to Build-up Your LinkedIn Profile' was conducted on 13th December after the talk session. Each group was asked to submit one report. The deadline for the competition was till 16th December. The report with best structure and overall effectiveness was considered for the selection of winners.

Juncture- A Virtual Group Discussion

A Virtual Group Discussion conducted from 14th to 16th December,2020 through Google Meet. This group wise competition was organized in such a way that a group was called at a time and the topic was given 10 minutes prior to the discussion. The way of execution and the performance of each group member as a whole was considered for

the evaluation. Topics for the discussion were ‘Lessons for the World from Covid 19 Pandemic’, ‘How will 2020 shape 2021?’ and ‘E-learning: A substitute for Classroom Learning’. The contest was judged by Mr. Sreekesh E, past Chair-person and Ms. Hamna Noufal, past Vice-Chairperson of IEEE SB CETkr. The competition was triumphant, and lifted up the skills of the student members.

Other than these activities, there were a series of 4 main tasks including:

Task 1: Ice Breaking Challenge conducted by the group mentors.

Task 2: Be Updated! where the mentors were made aware of the social media handles of the SB, to follow these and to get updated of the upcoming events or activities of the SB. The screenshot or other proofs of the two tasks were asked to submit in drive folders by each group.

Task 3: IEEE Mail & Collabratec Badge Challenge: All the members were challenged to make an IEEE mail by acknowledging them the benefits of using it and also to achieve the ‘Women in Leadership’ badge in IEEE Collabratec to make them familiarize the Collabratec platform. The members were asked to submit their IEEE mail and the Collabratec profile URL.

Task 4: Get Linked! Here the members had to create their own LinkedIn profiles and share their profile URL with the concerned.

After all the tasks and activities, the leader board were published and the winners were announced:

1- Inbounderz - 1392 points
2- Squadron - 1388 points
3- Ghilladikal- 1072 points
4- The Chamber of Secrets- 1048 points
5- Vikings- 983 points
6- Triton- 939 points
7- The Octaholics- 904 points
8- Lan Blast- 786 points
9- Fantastic 6- 553 points
10- Master Minds- 471 points

© IEEE SB CETkr

Valedictory Function

The event ended with a Valedictory Function organized on 23rd December at 4pm. The function was to wind up the entire event and announce all the winners of the competitions. The welcome speech was delivered by Ms. Aiswarya N, WiE Chairperson. Ms. Anannya P M, Chairperson, briefed the overall Event Reporting. Mr. Sreekanth P, Branch Counsellor addressed the function and announced all the winners. The word of thanks for and as a part of the Relligo family and the Vote of Thanks for the function was handled by Mr. Muhammed Shammas K P, PES SBC Chairperson. The anchor for the entire function was Ms. Reshmi P R, IAS SBC Vice-Chairperson.
The Relligo -Together with Unity, united the entire student members of the SB and boosted their confidence to peak, which made the entire event a roaring success.

INIZIO 6.0

IEEE SB CETkr inaugurated INIZIO 6.0 A NEW BEGINNING event for freshers to understand various aspects, importance, benefits, and opportunities awaiting them in IEEE. The program was started with an inauguration ceremony, After the inaugural ceremony was followed by the membership development session which was handled by Mr. Naseerb Abdulla past student representative of the IEEE Kerala section to deliver the important aspects regarding IEEE were conveyed to the students which were followed by an interactive game session for more than 200 students. There were mainly 4 activities conducted: 'Troll competition, Idea pitching competition, Climax swap, and Treasure hunt' conducted. For the game, the group was divided into 4 groups with 2-3 volunteers to guide them.

Troll competition– it was a fun competition said by the participant. It was held on the 3rd of January with the topic "college reopening" where a group can submit 2-3 memes or videos which should be created by themself with a comedy.

Idea pitching– here students are giving a topic ''sustainable future" where they should understand the problem and propose a solution for it but the solution had to meet the UN Sustainable Development goal and they had to prepare a ppt presentation of it. 3 days were given for the preparation here each group was given 15 min each to present their idea. the competition was very successful full and each group submitted their idea before it.

© IEEE SB CETkr

Climax swap– it was conducted on the 5th of January the competition was based on the idea were movies like Titanic, Trance, and CID Moosa were given and to recreate a different climax for the movie. A movie with their creative climax it was a very successful program were each group submitted a storyline and was judged based on their creative storyline and way of script presentation

Treasure hunt– it was conducted on the 8th of January the competition was held on the WhatsApp platform where it was started at 5 pm where the participants need to solve technical and intellectual questions. At first, the participant solves 4 questions were given first with 3 clues and followed up with questions after every 30 min. the answer was judged based on the accuracy and correct answer.

On the 6th of January, an interactive session was conducted for the freshers to clarify the doubt regarding their membership and benefits which was handled by past Execom members including Ms. Anusha M P, Mr. Sreekesh, and Ms. Athira K T were they also shared their volunteering experience and key take away from IEEE to the newcomers.

Motivation and Stress Management- was held on the 10th of January which was handled by Prof. Ajith Aloysius. Which mainly focused on how to overcome struggles and was particularly mean to give guidance to freshers on stepping into a professional course where participant really get motivated

ESPECTRA –IMAGINE, INVENT, INSPIRE
SCIENCE WEEK 2021 CELEBRATIONS

Espectra- Imagine, Invent, inspire a week of enthralling events was conducted by IEEE SB CETkr as a part of Science Week 2021 Celebrations from 21st-28th February 2021.A quiz competition, an article writing competition and a talk was conducted in accordance with the same through virtual platform.
Details of activities:

CRYPTICS- QUIZ COMPETITION

This invigorating event marked the commencement of Science Week 2021 Celebrations. It was conducted on 23rd February 2021 at 7PM. It was a half an hour event. Class maker was the platform used.

SCRIBBLE IT-ARTICLE WRITING COMPETITION

This was the second event. The topic for the same was "Nanotechnology and the Future". The participants were asked to submit their entries via Google Forms on or before 26th February 2021 either as a pdf or doc.

Talk on *'SOFTWARE AUTOMATION TESTING USING SELENIUM WEBDRIVER AND CORE JAVA'*

The talk was scheduled on 28th February 2021 at 7PM. It prolonged till 8.30. It was handled by Ashik C Sreenivasan (CTO, Techbyheart India Pvt Ltd, Secretary, Prathidhwani- Welfare Organization of IT Employees Kerala). Platform used was Google Meet.
The competition as a whole was a great success and gave the participants an opportunity to showcase their talents and also to get the hang of something modish. Through this event we were able to see such promising candidates and how well the youngsters did their part. The winners were bestowed with certificates.

INTRODUCTION TO DATA SCIENCE AND MACHINE LEARNING

IEEE SB CETkr conducted webinar on the topic 'Introduction to Data Science and Machine Learning on 12th March as a part of 'ESPECTRA-Imagine, Invent, Inspire –Science Week 2021 Celebration. The webinar was handled by Mr. Midhun M Data Analyst Engineer-Hashware Technology, Cofounder ReverTech IT Solutions, Secretary IEEE Kerala Section SIGHT. The session started at 5pm on Google meet. The session was every interesting and mind blowing as the topic is itself a very interesting for everyone. A total of 50 students where present in the session.

© IEEE SB CETkr

Power & Energy Society

INGENIUM

IEEE PES SBC CETkr organized INGENIUM, a Commemoration to the Great Legend, Benjamin Franklin as a part of Remembering Legends 2.0. As a day of remembrance there held an essay Writing competition and Poster designing competition in accordance with the event from 31st January -10th February 2021 on a Virtual Platform. It was exclusively for first-year UG students.

Details of the activities:

ESSAY WRITING COMPETITION

An Essay Writing Competition was held in accordance with INGENIUM. The topic for the same was “Benjamin Franklin, an Inspiration to Engineers of all Generations. Entries were received through google forms. Each student put forward their own viewpoint.

POSTER DESIGNING COMPETITION

A Poster Designing Competition was held in accordance with INGENIUM. The topic for the competition was “Contributions of Benjamin Franklin as a Scientist and Leader”. Entries were received through google forms.
The competitions as a whole were a great success and gave the participants an opportunity to showcase their writing and artistic skills. The winners were bestowed with certificates.

PES DAY 2021

On 11th of April – 12th May 2021, IEEE PES SBC CETkr conducted a series of rejuvenating events as a part of PES Day 2021 Celebrations. Which turned out be a successful event were the participants enjoyed the events and tried their best to become the best. . A quiz competition, write-up competition, workshop, experience sharing and a treasure hunt was conducted in accordance with the celebrations.

ENERGIA – A TECHNICAL QUIZ COMPETITION

It was held on 11th of April 2021 which marked the commence met of pes day 2021 celebration. On the topic “renewable energy”. Which was on the online plat form class maker were total of 34 participants participated in the event and the winner were announced shortly were Amruth P of RIT Kotayam secured first, Sreeparvaty and Tasmiha Rahman of IUT Bangladesh shared the second position and third was secured by Reshma B of LBSITW.

WRITE-UP COMPETITION

This was the second event held regarding the program the topic for the competition as renewable energy for a clean and sustainable future , and the participants were the participants were asked to submit their entries via Google Forms on or before 7th May 2021 either as a pdf or doc. Were a 9 participants took part of it and the first position was secured by Lekshmi Shrama of ASIET kalady secured first , sreya T of CE Trikaripur and Garziya Jacob of CE Trivandrum secured the second and third position respectively. And we helped out to find the inner writer and encourage them to come out through this competition.

WORKSHOP ON PROGRAM YOUR PLC

The talk was scheduled on 4th of May 2021 at 7pm and was handled by Mr. Premoth Aniruth T (Founder of Fusoplug, Mentor of IEEE SB JEC). Were he made us understand the benefits and various applications of PLC. It was a very detailed and specified program where we understood more about PLC. He also encouraged us to share the work during the session was conducted in google meet were more than 45 students attended it

© IEEE SB CETkr

EXPERIENCE SHARING ON 'STUDENT MEMBER TO YP WiP REPRESENTATIVE

The event was held on 9th of May 2021 at 7:30-8:30pm by Ms.Raneena Raoof (YP Women representative ,IEEE PES YP Kerela Section) were she shared her experience of her journey from students member to YP WiP representative we was happy to see her life through her stories and understand the life of her the session was in google meet and the registration was done through the google forms were total of 41 members were presented .The session helped the participants recognize the importance of an IEEE Membership and also brought into lime light the opportunities and benefits hidden in this organization.

DIG INTO DEEP-TREASURE HUNT

The event marked the end of the program it was held at 12th of May 2021.on WhatsApp between 7:00PM to 8:30PM were the participants registered their names through the google forms where the events were exclusive for the students of collage of engineering Trikaripur only. Were a 23 or more student have joined and then, ten passwords protected pdfs were distributed and the password to unlock the first pdf was also provided. The clues provided in the previous pdf's were the keys to the next. The one who unlocks all the pdf's using the clues provided in the previous sets of pdfs and sends the screenshot of the tenth pdf to the concerned was considered to be the winner. Later the winner was announced Akshey K, Kiran Raj P and Dayes Joseph won the first, second and third respectively.

The competition as a whole was a great success and the participants were showered with knowledge and exhilarating experiences. It also became a platform for the participants to exhibit their talents. The winners were bestowed with certificates.

Industry Applications Society

INAUGURAL CEREMONY - IEEE IAS SBC CETkr

0n 27th September 2020, IEEE SB CETkr put a beginning to our new Student Branch Chapter, Industry Application Society (IAS). The inaugural ceremony was conducted virtually at 4 pm IST. The event began shortly by Ananya P M, the Chairperson of IEEE SB CETkr, by introducing the Code of Ethics. It was then followed by a Welcome Address by the Branch Counsellor and Chapter Advisor (IAS SBC) of IEEE SB CETkr Prof. Srikanth P. The Principal of College of Engineering Trikaripur, Dr. Vinod Pottakulath was in charge of the Presidential Address. The Inaugural Address was delivered by honorable Dr. Ing Peter Magyar the Director of IAS Chapter Development who then gave us guidance to lead SBC in the right track and provided us with insight into the core of IAS. We were indeed very delighted with his presence. Guests of Honor for the session were Lesley Arakkal, CMD Chair and Sumit Chhabria, Chairperson of IAS Young Professionals. Both of them gave us insight upon major activities and Membership Development. Further they also shared with us their journey making it even more interesting to know more about the session. Felicitation was given by Dr. Bijuna Kunju K, Prof. Biju K, Ruben Mathew, Prof. Naveena AK. The annual plan was presented by Reshmi P R, the Vice Chairperson of IEEE IAS SBC CETkr. The IAS Executive Members were officially declared by Dr. Ing Peter Magyar and finally concluded with vote of thanks by Mohammed Sufair C T, Chairperson-IEEE IAS SBC CETkr.

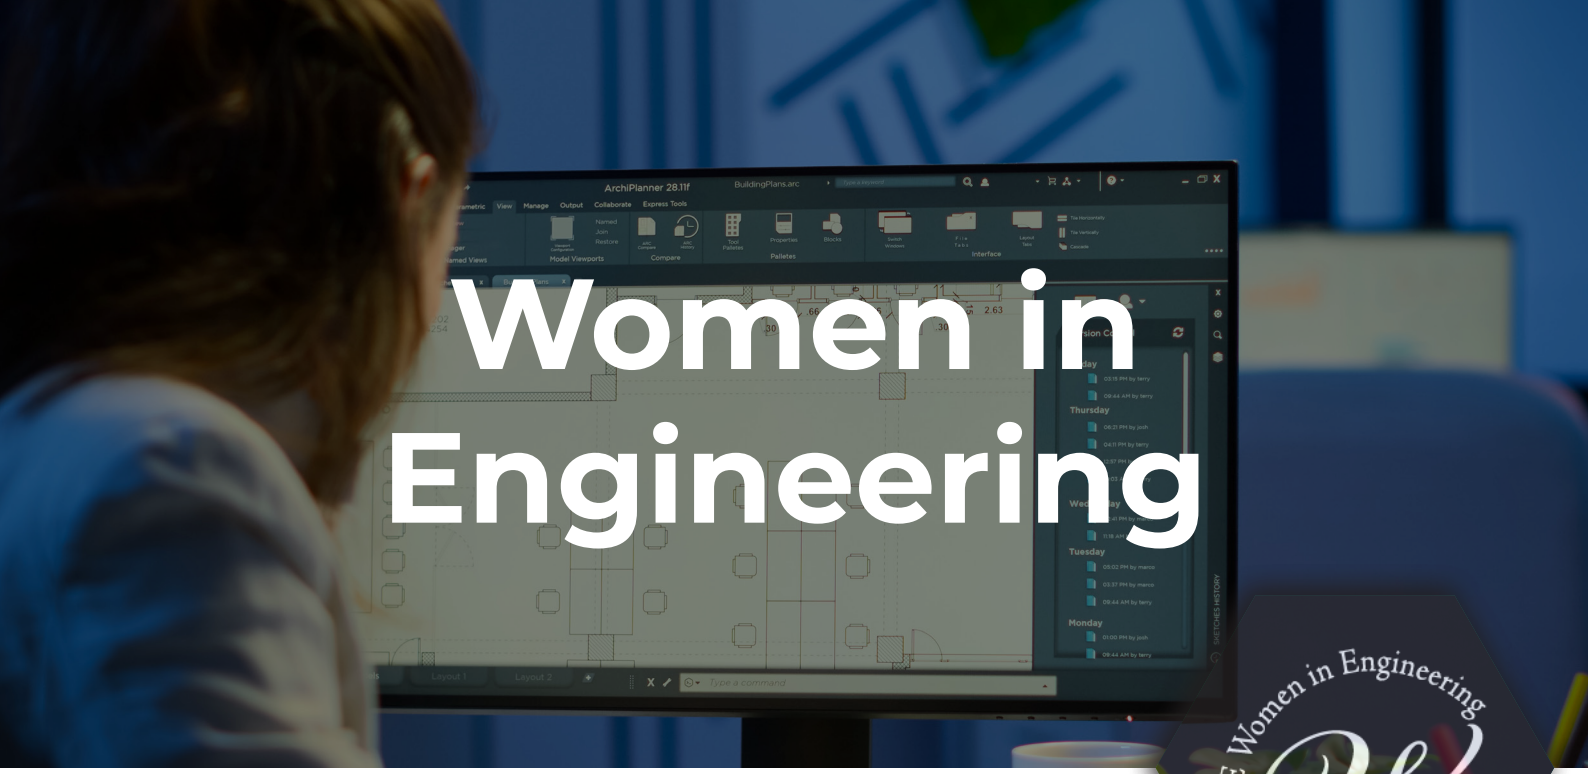
© IEEE SB CETkr

IAS MEMBERSHIP DEVELOPMENT SESSION

ON 14th February 2021, IEEE IAS SBC CETkr organized an online Interactive session on "MEMBERSHIP DEVELOPMENT" absolutely for the students of CETkr. The session was led by Ms. Nivetha K M (MD coordinator and Kochi HSR student Execom 2020, IEEE IA/IE/PELS It. Chapter Kerala). The session was held on Google meet at 4:00PM. Almost 50 active participants were in the session. The information and links regarding the meeting were shared among participants through mail. The session started with a welcome speech by Vaishakh P Nambiar, Chairperson, IEEE SB CETkr. The session was interesting and informative. The session made the attendees aware about advantages of having IAS membership and also it made an outline on topics such as IEEE survey industry application, standards of IEEE IAS, opportunity Joint publications of IEEE IAS, Activities of IEEE IAS CMD chapter web contest, IAS CMD, award winners and travel grant recipients from Kerala section. In order to make the session captivating, a Kahoot was conducted to ensure the participation of attendees. The winners of Kahoot were also declared. A Q& A segment was also conducted towards the end. The session has been concluded by a vote of thanks by Reshmi P R, IAS Vice chair, IEEE SB CETkr. The session was a success and had a wide acceptance among the attendees.

HELLO JARVIS

IEEE IAS SBC CETkr organized a 3day Personal Assistant App Development Workshop-HELLO JARVIS from 21st to 23rd of May 2021on WebEx platform. The session was handled by Mr. Shyam Pradeep Alil (Co-Founder and Chief Operations Officer Infusory Future Tech Labs Pvt Ltd). The workshop was aimed at making the participants capable of creating a Personal Assistant App by their own. Prerequisites and instructions were shared with poster. A detailed brochure was released later. Further details and meeting links were shared through WhatsApp and emails. Registration fees for IEEE members were Rs.100 and for non-IEEE members were Rs.150. There was a total of 62 participants. The 3rd day had a Mini Hackathon, in which teams were formed with 5 members each. And each team was provided with mentors for helping and clarifying the doubts of the participants. Each team was asked to come up with an innovative idea and must use the MIT App for implementing it. The duration of hackathon was 45 minutes. Group 11 who created a "BMI Calculator" won first prize while Group 13 won the second prize for "Read Up" and third place was took by group 10 for creating a "Voice Translator". First prize and Second prize winners were awarded with cash prize worth Rs.1000 and Rs.500 respectively. It was really magnificent workshop and succeeded in achieving its aim. The participants were highly gratified and persuaded.



Women in Engineering

Aurelia- "A Reflection of Thoughts"

AURELIA- A reflection of thoughts,4-day event from 25-28th June 2020 consist of 4 exceptional haps and 5 talented speakers to deliver talk on 5 sessions. A complete 4 days talk session except for the last day, with some intermediate events to bring a whole attractive and prodigy.

Sessions:

Day 1: Digital Marketing and Freelancing

A talk session led by Ms. Chaitanya Bhargavan (Digital Marketer & Ex-Byju-ite) was held on Cisco WebEx platform on 25th June 2020 at 7pm. The session made the members gain knowledge about new era marketing skills and helped them realize it's importance.

Day 2: Cloud Computing and Introduction to AWS

An informative talk session on 'Cloud Computing and Introduction to AWS' by Ms. Jefy Thomas (Senior Software Engineer in In-app and Volunteer of IEEE Kerala Young Professionals) was conducted on 26 of June 2020 through Google meet.

Day 3: Professional Email Writing Tips

M.s Pooja Sharma (Component Engineer at Flex Pvt.Ltd & Secretary at IEEE Madras WIE) handled a session on the topic 'Professional Email Writing Tips' through Google meet at 7 PM on 27th June 2020.

Day 4: Emotional Intelligence

A thought awakening session was handled by M.s Mega Ben Vice Chair (SYP), IEEE CS MGA Board on the topic "Emotional Intelligence" through Google meet on 28 on June 2020 at 3PM.

Day 5: Regulatory Affair and Compliance of Medical Devices

A talk on 'Regulatory Affairs and Compliance of Medical Devices' was handled by Ms. Jiby Krishna,

© IEEE SB CETkr

Equipment Research and Development Engineer at 7PM on Google meet platform. It was the ending session of Aurelia.

Contests

1.Quizzico- Online Puzzle Contest

It was an online brainstorm puzzle contest conducted as part of our event at 4.30PM on 26th June 2020, with 1 hour duration. It was conducted through our social media handles. Winners were awarded with certificates.

2.Xpress- Audio Challenge

A 1-minute audio challenge on the theme 'My Imperfections make me Perfect' was organized. The contestants were asked to record their 1min audio and upload it. Received entries were released through our social media handles and the best were chosen and winners were declared.

3.Galatea- Origami Contest

This was an origami contest in which the contestants should make an origami of the type kirigami and should send the video of their respective creation. Winners were bestowed with certificates.

DELOGO-Logo Designing Contest

'Delogo' -Logo Designing Contest was conducted by IEEE SB CETkr on behalf of International Women's Day on 2nd March 2021. The aim of the contest was to make the students realize and visualize deep in through the ideas. The contest was open into a creative culture. The participants were super excited and filled with zest during the competition. The zealous participants etched out inspiring creative designs. The students took the competition in heart, moreover in mind and they thought out of the box. The event as a whole was a grand success.

CANVASS

Canvass video contest was conducted as a part of International Women's Day. The poster was released on 2nd March 2021 and entries were requested to submit before March 5th. The topic of the contest was 'She Inspired Me'. The participants were requested to submit their 1-minute entries through Google form in M4 format. The winner of the contest was Megha K V, College of Engineering Trikaripur.

QUIZ BEE

I've never thought of myself as a female engineer, or founder, or a woman in tech. I just think of myself as being passionate. - Leah Busque, Women in Engineering Affinity Groups of IEEE SB CETkr, IEEE SB CEM and IEEE SB SJCET conducted a virtual quiz competition 'Quize Bee' as part of WIEvacity-WIE Week Celebration on 3rd May 2021 at 5pm and Class Marker as platform, based on the topic 'Women and Technology'. The

main objective of the event was to brainstorm the participants and make them aware of Women in Industry. An open to all registration form was released on 30th April 2021 and it was open till 2nd May 2021.Entries were collected through google form. A WhatsApp group was created to communicate with the registrants. Total of 111 students participated out of which 41 were non-IEEE members. Each registrant was given a unique registration number. The quiz was only available for exactly 15minutes. On 11th may the winners were announced and certificates for appreciation were provided. And our brilliant volunteers-Shabna P, Najiya P A, Ann Susan George had done a remarkable job by making the program a grand success. The competition was a victorious event with excellent appreciation from the participants.

TAKE DE BATE

IEEE SB CETkr coordinated with IEEE SB SJCET and IEEE SB CEM conducted an online debate competition "TAKE DE BATH" as to celebrate the spirit of womanhood, the student community of IEEE women in engineering. The theme of celebration was "women and Technology". The event lasted for a week from 4th may 2021 05:30pm to 12th may 2021 06:30pm. IEEE SB CETkr was started in 2013 and has had a drastic growth and now chapters of Industrial Application Society (IAS)SBC, Power and Energy Society (PES) SBC, and Women in Engineering (WIE)AG are working under our SB. We have been conducting various events and activities for improving skills, interpersonal and technological aspects. TAKE DE BATE is also an event conducted along with IEEE SB SJCET and IEEE SB CEM to make the participants recognize, develop, expand knowledge and skills, generate effective critical thinking, create interest in speaking and to improve critical thinking. The registration form of events was open to all from 25th April to 2nd may as in the form of Google forms. As to share the link and further updates regarding the event among the registrants a Sapp group was created. A total of 22 participants (15 IEEE and 7 Non-IEEE members) from various colleges were present and were divided into 8 teams. The event was conducted through Google meet. For the effectiveness of debate a panel of judgment and a debate master were also present. The effort of the volunteers and the active participation of attendees made the event a grant success. Posters to invite the participation and also to appreciate the winners were circulated. All participants were awarded with certificates.

SPEAK UP

As part of WiEvacity-WIE week celebrations 2021, Women in Engineering Affinity Groups of IEEE SB CEM, IEEE SB CETKR and IEEE SB SJCET Palai jointly organized Speak Up, an extempore competition to enhance the oratory skills of students especially girls. This event which gripped to the theme "Women and Technology" by all its colors, was conducted through Google meet at 6 pm on 9th May 2021. The event heard voices of some excellent orators on the topic "Women are underrepresented in

© IEEE SB CETkr

the tech sector". The aim of the event was to build & develop the interest for speaking, improve time management and communication skills and to upgrade participants' knowledge on the topic 'Women and Technology'. There was a total of 7 participants out of which 3 were non-IEEE members. The planning was initiated by uniting WIE AGs of IEEE SB CEM, IEEE CETKR and IEEE SB SJCET Palai into a team 'WiE Keens'. Members of WiE Keens discussed through WhatsApp and Google meet to decide the name and other details of the events. The registration started after the poster release. The volunteers contacted every participant to share the rules/guidelines and clarify the doubts. The panel member was Gitin Jacob George, Secretary, IEEE CNAG-KS and Industry Relations Coordinator, IKYP. Finally, the event was conducted smoothly by cooperation of volunteers and participants. The participants were very delighted to be a part of this event. In feedback form students wrote that for them the event was very helpful to improve their time management and oratory skills. They thanked the organizers for giving them the opportunity to speak up. At last, it was concluded by publishing the results and awarding the winners certificate of excellence. The participants were provided with certificates of participation. The event was highly successful in enhancing the communication skills of the participants.

INSIDE OUT

On 23rd December 2020, the very own podcast of IEEE SB CETkr, INSIDE OUT was launched. The official announcement of the podcast was set afloat during the Valedictory Function of the event
Relligo-Together with Unity by Prof. Sreekanth P, Counselor of IEEE SB CETkr.
The main motive behind INSIDE OUT is to provide a platform to discuss and cherish the visions that could or might have created a change. The podcast shall be a bundle of riveting exchanges of thoughts on technical as well as non-technical areas. It is planned to take the listener along a journey through stories of people who created a spark and let them shape their vision.
INSIDE OUT has on its backbone a vibrant team of volunteers to handle the planning and execution of the final draft of an episode. Volunteers are spread across the wings like editors, anchors and planning committee as per the need, dedicated to bring out the best experience out of each episode.
The idea of the podcast was proposed by Mr. Navaneeth N Raj, Past Vice-Chair of IEEE SB CETkr and an active IEEE Volunteer, following the formation of the main coordinating/planning team which includes himself, Ms. Anannya P M (Chair, IEEE SB CETkr) and Mr. Muhammed Shammas K P (Chair, IEEE PES SBC CETkr). On 23rd September 2020, the podcast team was formed including main coordinators, editors, and anchors. Initially, it was available only on the YouTube channel of our SB, but from 15th May 2021, it was made available on other platforms including Apple Podcast, Spotify, Google Podcasts, and Amazon Music. The episodes follow an alternating sequence of technical and non-technical contents.

Episodes

Episode 1:
Released on: 25th December 2020
Title: **Crafting "Turning points"**
Speaker: Sahil Sameer, MBA (2020 - 2022) at IIM Indore, Founding team member of keralarescue.in
Episode Highlights: Story of keralarescue.in, Spirit of Getting Involved and Opportunities in Communities.

Episode 2:
Released on: 22nd June 2021
Title: **The Odyssey of a Cinephile**
Speaker: Naveen Anand, CETkr Alumni, Past Secretary, Odessa New Wave
Episode Highlights: Embracing the Art of Films, Flipping through College Life, Odessa New Wave Film Club and Debut performance in an Album song

Episode 3:
Released on: 5th September 2021
Title: **"The Expedition of an Entrepreneur"**
Speaker: Shyam Pradeep Alil, Co-Founder & Chief Operations Officer, Infusory Future Tech Labs Pvt Ltd
Episode Highlights: From a Curious Kid to a Self-Build Entrepreneur, Pedaling Up through Experiences, Encounter with the Exemplifies and Start-up Life

REMINISCENCE

"I felt college was boring until I joined IEEE. The organization with students from different years of different branches join their hands to work for enhancement. I got a great chance to grow not only by working within the SB but also attending events at other colleges. The life with IEEE was beautiful because of the bunch of people I got .Even you stand at a high position or a new joined you work with the same enthusiasm and effort that makes IEEE stand out for other organizations remember the way we ran with request letters to teachers, the way we planned the events, the way we argued, the way we enjoyed visiting other college events, the way we arranged food, the way we worked together without any kind of moving back .I miss the time when instead of planning events we did gossiping. The highlighting part of being in IEEE was the visit to other colleges, the fun-filled trips and the exciting events. I will always be thankful for IEEE for all the beautiful moments it has given me during my college days. I miss each and every person whom I have met during the 4 years of IEEE."

-Swetha

"I am elated to share my IEEE journey with my juniors through this newsletter. I appreciate the initiative of our current SB Execom. I started my IEEE journey in 2018 as a student volunteer. In my starting phase, I got the opportunity to serve as the Chairperson of our IEEE Student Branch and to serve as the Electronics Communication Coordinator of IEEE PES Kerala Chapter Student Leadership Team. In 2016 I started my BTech journey and I heard a lot about IEEE and its activities. But I was not interested in being a part of the organization. I thought that it would be a boring platform. But in 2017, I attended an event at MES Engineering College, Kuttipuram and I enjoyed the event. I got a lot of friends from it, and also my view about IEEE transformed. I got privileged to attend a lot of events in our student branch as well as in other colleges. I am still an IEEE volunteer and currently serving as the Malabar Subsection Representative, IEEE PES YP Kerala, Member-Events and Conferences Subcommittee, IEEE PES YP, and Member-Marketing and publicity Working Group, PES HAC Team. I got opportunities to organize and participate in various events from the student branch to the international level. The main benefits I got from IEEE are Networking, development of soft skills like leadership skills, team management, problem-solving, and gave me a boost in my technical and non-technical life. I am continuing my IEEE journey by renewing my membership with such a fee. You may wonder why I'm continuing on the platform. I cannot put the answer to that question in words. The experience that IEEE provides is something you need to experience. You should throw yourself out there into the depths of IEEE to realize the true value it provides you. The experience it provides for each person is going to be different. An IEEE membership is an absolute waste of money if you are not making the right use of it. You all have an opportunity to coordinate and participate in Student Branch Events, then go outside of your college and create a strong network circle. You need to explore the benefits of IEEE Membership. Don't miss any chances to explore it. Then you will automatically renew your membership throughout your life. Coming to my student branch volunteering life I already said that I was late to take the membership. I didn't attend Inizio (Inizio is an event exclusively for the first-year students of our college). I missed one year. Then I took membership in 2018 and was selected as the Chairperson. And the first task was organizing Reviens 2.0. Reviens is

© IEEE SB CETkr

the flagship event of our student branch. It was a 3-day event with different workshops, talks, games, culture, and trips. The fun moments during the event nights and behind-the-event activities are great memories. It was an amazing experience for us. Our execom started with organizing such a big event. Then we organized a lot of events like starting from reviews, then Inizio 5.0(A two-day event for freshers combined with workshops, orientations, and fun activities). It helped to reduce the gap between juniors and seniors. Our student branch focuses on organizing technical events that will allow you to develop your technical skills, get knowledge about new things, and boost your professional career. IEEE is not only a technical thing, we are also conducted non-technical events like soft-skill training, Charity programs, Hair donation camps etc. Also, our student branch's contribution to our college Techfest is unavoidable. Our IEEE Student Branch always encourages our members to showcase their skills and upgrade their skills. IEEE will give a platform to use for showcasing our skills, sometimes we may get an opportunity to take sessions and it will help you to develop your knowledge in your favorite areas. Also, it will allow the emerging entrepreneurs to develop their company with the network and skills they got from IEEE. You can also be a part of some humanitarian projects so we can use technology for humanity. I was also a part of a humanitarian project called RAWCE. The project aimed at helping a village get water from a pond using solar energy. That was an amazing experience. And in our student branch, there are various societies like WIE, PES, IAS. You can learn about all these things and you can explore all these using the IEEE membership. The experiences I got from Serving various teams sure did elevate my technical, managerial, and team management skills. I was also a part of various signature events of different teams (like our SB, PES Kerala Chapter, PES YP Team) where I built a network with several hardworking, optimistic, and constructive mindset people. IEEE is not just a technical society but also a platform that brought me up. It trained me to be a team player and a leader even when adverse and hard situations."

-Sreekesh E

"Speaking of volunteering, "Volunteers do not necessarily have the time; they have the heart", quoted by Elizabeth Andrew is the quote that flows into my mind first.
IEEE has taught me and molded me to be a better professional. I was fortunate to begin my journey at IEEE SB CETkr with a wonderfully jovial and energetic team, who even in the middle of academic busy days, found time to bring useful and interesting activities to foster the growth of SB. This has helped me shape my views and ideas in various domains, helping me connect and collaborate with various volunteers across the nation. For someone with a mind to explore and take initiatives as their friend, IEEE shall surely prove as a catalyst to their professional development."

-Anannya P M
